- EPK -

## BIO

Slim Thony is a music producer, DJ & lover of art. He draws inspiration from a multi-layered musical repertoire. His inspirations are rhythms from Latin America, jazz harmonies, grooves from hip-hop & funk, psy dub & goa trance. Slim Thony has been processing his artistic influences for more than a decade. Now he is consolidating his musical signature by combining elements of different musical styles.

After more than 10 years of self-taught learning and a degree from the conservatory, Slim Thony wants to express his personal feelings in the form of sound. "Melodias de Goma" was Slim Thonys first official release. The EP combines elements of low-tempo trance, jungle and hip-hop. These stylistic elements were taken up and developed further in the follow-up project "Jungle Me".
