

SLIM THONY

- EPK -

Slim Thony is a music producer, DJ and composer. He grew up in a rural environment and is a nature-bound new-age hippie. He spent almost the first 10 years of his musical career self-taught, followed by conservatory studies. He draws inspiration from a multi-layered musical repertoire, that includes latin rhythms, hip-hop grooves, psy dub & goa trance. After a decade of processing his musical inspirations, he is consolidating his own musical signature. His genre-bending productions combine elements of low tempo goa trance, hip-hop grooves and organic soundscapes. By using digital and analog oundsources his tunes are blending between old an newschool vibes.
